

TruAssure Dental Plans

TRUE CHOICES. TRUE SAVINGS. TRUE PROTECTION.
TRULY GOOD COVERAGE.

ACA-Certified • Basic • Preferred

TruAssure ACA-Certified Basic and Preferred Plans for Businesses*

TruAssure's ACA-certified Basic and Preferred dental plans offer small businesses comprehensive dental coverage that meets ACA requirements for pediatric dental coverage while also offering coverage for adults. Our Basic and Preferred plans cover preventive dental care at 100% in-network, do not have waiting periods and offer the same coverage in and out of network. Our plans also help attract and retain employees and our pooled rates provide the best overall savings for your group. And we make them hassle-free for groups and their employees.

If your business does not need an ACA-certified plan, we also offer plans that include additional benefits and can be customized to meet your dental benefit needs.

Why a TruAssure ACA-certified plan makes sense:

- **Truly affordable coverage.** Our dental plans help keep your bottom line manageable.
- **Two simple plans with comprehensive coverage that make it easy for employees to choose.**
Our Basic and Preferred plans meet the pediatric dental requirement of the Affordable Care Act (ACA).
- **Benefits that stress prevention.** Your employees get the preventive care they need before small issues turn into more costly and time-intensive treatments.
- **Stand-alone plans independent of health insurance.** Your members get richer coverage and lower out-of-pocket costs than a plan that's "embedded" in their health plan.
- **Network dentists where employees need them.** Employees can find dentists who best fit their schedules and location – close to home or near the office.
- **Service that will make you smile.** Your employees get accurate and timely answers to their questions, allowing you to manage the rest of your business.
- **Our small group plans offer twice the benefit of most dental carriers** with a \$1,800 annual maximum compared to other carriers' \$1,000 annual maximum.
- **No waiting periods.** Most carriers have a waiting period.
- **TruAssure plans offer no age limits or rate increases for individuals older than 65.** Many carriers have age limits and age banded rates, charging those older than 65 more than younger customers.
- **Our ACA-certified plans include our Enhanced Benefits Program,** which offers additional coverage for individuals who have specific health conditions, such as diabetes and high-risk cardiac conditions, that can be positively affected by additional oral health care.

TruAssure small group ACA-certified dental plans feature:

- The freedom to choose your own dentist
- Two simple plan options that meet ACA requirements
- Preventive care covered at 100% in-network
- Comprehensive coverage options
- Annual maximum up to \$1,800
- No waiting periods
- No age limit or rate increase for individuals 65+
- Enhanced benefits are included
